

Douglas Scott Awarded Esri Technical Certification,

Avalanche Mapping is proud to announce that Douglas Scott has recently been awarded Esri Technical Certification which recognizes superior skill levels utilizing Esri's software for geographic information systems (GIS). Douglas Scott was awarded the ArcGIS Desktop Associate Certification.

Douglas Scott's certification accomplishment demonstrates the level of GIS knowledge and professional expertise that Avalanche Mapping stands for.

To earn Esri Technical Certification, candidates have to successfully pass an examination that assesses knowledge and skills cultivated through years of experience as a geographic information system professional. Since Esri launched the program within the past year, Douglas Scott is among the first to earn this honor.

Find out more about Esri Technical Certification at www.esri.com/certification.
